

# Lead with PBIS

Brandi Simonsen, Ph.D. ([brandi.simonsen@uconn.edu](mailto:brandi.simonsen@uconn.edu))

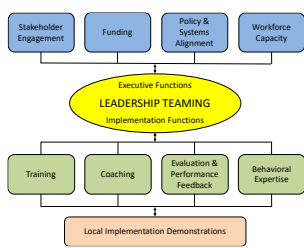

## 1. Promise of Positive

- **Consider one student...**
  - What are the positive and proactive supports you would design to support this student?
  - Support individual students
- **Now, consider that one student in the context of one classroom...**
  - What are the positive and proactive supports you would design to support this classroom?
  - [Supporting and Responding to Student Behavior: Evidence-Based Classroom Strategies for Teachers](#)
- **Now, consider the educators responsible for that classroom...**
  - What are the positive and proactive supports you would design to support educators?
  - Live PBIS for the educators
- **Now, consider that you are a member of the leadership team for your school...**
  - How do you organize school-wide systems of positive and proactive support?
  - [PBIS Technical Brief on Systems to Support Teachers' Implementation of Positive Classroom Behavior Support](#)
- **Now, realize (or imagine) that you are responsible for *all* schools in your district...**
  - How do you organize district-wide systems of positive and proactive support?
  - [PBIS Blueprints for Success](#)

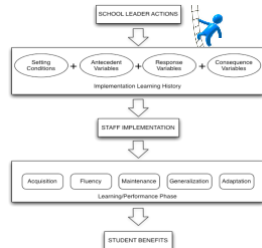

*We must live PBIS for educators if we want educators to live it for the students!*

## 2. Lead with a Team

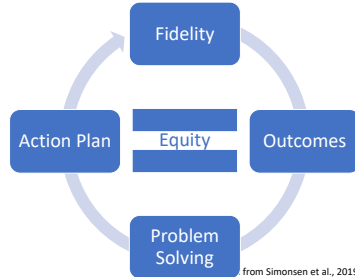

(Sluggo, O'Keefe, Hornet, & Lewis, 2018, p. 383)

[Implementation Blueprint](#)

*Create a culture of support!*

## 3. Use Data to Guide Decisions

- Ground yourself with data
- Share data
- Celebrate data

*Use, share, and celebrate data!*

## 4. Celebrate & Build on Success (Tour of Clichés)

- **Start Small:** What's the smallest number of things you can do to achieve the biggest impact?
- **Work Smarter NOT Harder**
- **Celebrate the Small Steps** (aka reinforce successive approximations...aka shaping...it's all about behavioral science!)
- **To boldly go where \_\_\_\_\_ has gone before:**

*Use behavioral science to increase your probability of success!*
